---

Hey Leslie and Nancy -- please see the thread below re: the ODFW take permit. ODFW is amenable to sharing their take limits and to putting ODFW staff in the field with LWG crews for the boat electro-fishing (for bass and carp). EPA has directed LWG to coordinate directly with ODFW on the permit issues.

Please let us know if there are any questions or concerns hanging around out there, or if you need any additional information. Thanks!

-R
